Corporate Presentation

Mustek

Resonate

Mustek is one of the largest assemblers and distributors of personal computers and complementary ICT products, services and software in South Africa. Mustek is the operational business division of the Mustek Limited Group (established in 1987) which also includes Rectron. By combining the best of local assembly capabilities of the Mecer brand with a multinational product portfolio via a broad range of top tier ICT brands, Mustek is focused on being the country's ICT supplier of choice.

Through the supply of configuration and customisation, tried and trusted best industry practices and competitive pricing, Mustek is positioned to service a wide range of technology needs. For more information about Mustek and its proven track record of solution formulation and superior technical expertise, **visit www.mustek.co.za**.
